# Durometer Test Stand

**DTS** The DTS Series Operating Stand is the ideal tool for repetitive or lab-type testing for users who must test either large specimens, or test in a number of different durometer scales. The DTS Operating Stand, used in conjunction with a durometer eliminates the operator error sometimes associated with shop floor durometer testing. The stand features a floating pin and includes the proper load weights required for testing in durometer scales, Each durometer of type A,E,B,O and SRIS with fixing around 1 kg weight and type D,DO,C with fix around 5 kg, as noted in ASTM D2240, ISO,JIS

**DTS-A**

**DTS-D**

## Specification

DTS-A with fixing around 1 kg weight  
DTS-D with fixing around 5 kg weight  
Adjusted glass stage

These equipments can help us test the hardness more acutely
