

# Bolt Burst Plug

Model: BP1020

## Description

BP1020 Series bolt rupture disk is a pressure relief device, which adopts arched rupture disk design, locked leak-proof seal, it will burst in a moment to release pressure when excess pressure appears, with low cost of installation and protection. The rupture disk will be burst instantaneously in a specific range, and release the over pressure in an emergency situation to protect the control equipment. BP1020 series rupture disk is specially designed for all kinds of hydraulic equipments, and it plays an important role in release and buffer pressure in the industrial area.

## Application

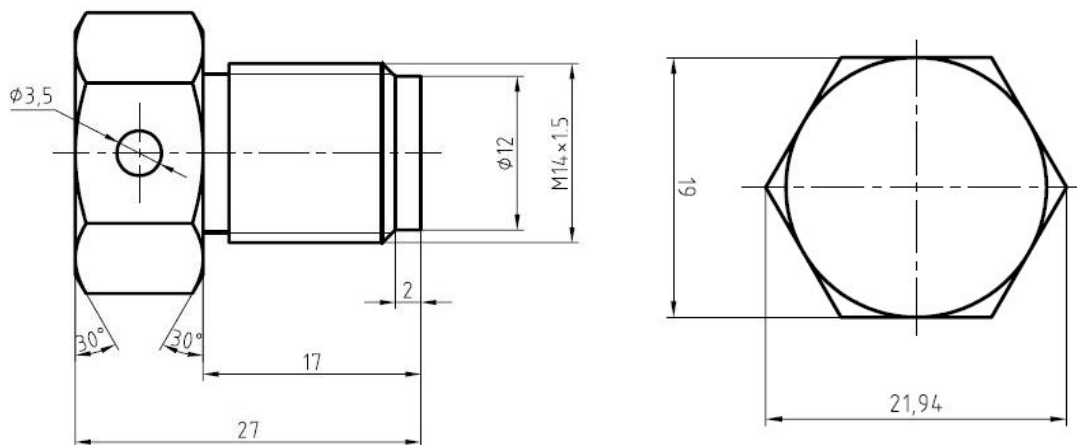

Industrial control, gas, liquid and medical equipment  
Plastic & rubber process machine  
Other fluid process control

## Feature

Pressure range: 0...10bar...700bar  
Caliber range:  $\Phi 5\text{mm}$ ... $\Phi 50\text{mm}$ ...300mm  
Material: 316L, copper nickel alloy

## Dimensions

## Shanghai Zhaohui Pressure Apparatus Co., Ltd
